The award will be tenable at an Australian tertiary institution with adequate facilities for post-graduate research in the applicant's discipline. The applicant will generally have completed the first stage of the PhD project. The successful applicant will be expected to take up the scholarship during the calendar year 2011.

The purpose of the scholarship is to try to improve the health of Australians by supporting an outstanding applicant from one of the non-medical allied health disciplines whose research is likely to fall outside the conventional areas of medical research.
